

Recycled Shrink Bundling Film

For Multi-Packs of Bottles & Cans

INDEVCO
PACKAGING SOLUTIONS

A Sustainable Packaging Choice

↓ RAW MATERIAL REDUCTION

♻️ RECYCLED CONTENT

♻️ RECYCLABLE

Up to 50% PCR or PIR, 100% Recyclable, Plain or Print-Ready

INDEVCO Plastics manufactures sustainable unprinted or print-ready Shrink Bundling Film comprised of up to 50% post-consumer recycled (PCR) resin or post-industrial recycled (PIR) resin. Using recycled material allows for decreased greenhouse gas emissions during production and aids in landfill reduction.

Food and beverage manufacturers and bottlers use INDEVCO Plastics' Shrink Bundling Film to multi-pack bottles, jars, and cans for maximum security with excellent puncture resistance. Tight bullseye closures allow for easy carrying and handling. Shrink Bundling Film can be utilized alone or with corrugated trays.

Shrink Bundling Film has been tested for mechanical, optical, and processing performance and provides an outstanding combination of creep resistance, strength, and high shrink force properties required for pallet and load stability. This shrink collation film offers consistent performance across high speed, one and two roll shrink tunnel machine types.

Markets

Beverage, Packaging Converting (plastic, glass, metal), Pet Food, Processed Food

Shrink Bundling Film Specifications

Product Specs	Lay Flat Width: Up to 102" Gauge: 1.0 mil – 7.0 mil Material: Polyethylene with up to 50% PCR and/or PIR Density: 0.930 g/cm ³ C-fold for custom applications
Printing	Print-ready Printed film available in cooperation with our printing partners
Roll Dimensions	Core Options: Fiberboard or PVC Inner Core Diameter: 3" - 6" Roll Diameter: 14" – 45" (custom sizing available)
Product Performance	Tight bullseye closure Excellent puncture & abuse resistance High film clarity & gloss High load & transport stability For use with 1 roll & 2 roll heat tunnel machines

Shrink Bundling Film Options

	Raw Materials		Packaging Recovery
	Raw Material Reduction	Recycled PE	100% Recyclable

Shrink Bundling Film Benefits

Package Integrity	Shrink Bundling Film, with its high holding strength and creep resistance, keeps the contents within safe and stable through even the roughest of handling.
Easy to Carry	Tight bulls-eye closures provide a way to easily carry multipack products to their destination. Shrink Bundling Film allows for bottles, jars, cans, and containers to be moved more efficiently than unbundled products, resulting in less trips to retrieve products and faster unloading times.
Plain or Print-Ready	Unprinted Shrink Bundling Film allows multi-pack products to advertise themselves with exceptional film clarity or opt for print-ready film with a glossy appearance that meets your printing needs.
Shipping Cost Reduction	Heat-sealed film keeps products compacted, meaning more products can be shipped and stored without packaging taking up valuable space.
